About

Highly relevant in today's modern open plan offices, Priva workspaces are designed for those moments where personal space is required to focus on tasks with minimal noise and distraction. The solo booths are a great place for individuals to seek refuge away the busy, hectic office environment by creating a compact, secluded working area which is sometimes needed for a period of intensive work or concentration to finish off the job in hand.

Design can be easily extended with numerous configurations to suit any office layout

The loss of private space and an inability to concentrate in an open plan work area has inspired the design of the Priva angles workstations which can be configured to specific needs and support individual work zones. The rich repertoire of geometric shapes can be positioned to suit defined spaces, allowing individuals to concentrate and complete focused tasks in a private space within the workplace environment.
